Hohai University Beamer Template

Clean Academic Slides for Research Talks

Presenter: Your Name

June 4, 2026

Design Direction

Core Principle

A restrained academic theme: clear hierarchy, generous whitespace, and formal university branding.

- ▶ Hohai blue for structure and navigation
- ▶ Warm gold for section breaks and emphasis
- ▶ Light water-tone backgrounds for content panels

HOHAI UNIVERSITY

Best Fit

Seminars, defenses, lectures, and research group meetings.

Section 1

Theme System

Table of Contents

1 Theme System

- ▶ Theme System
- ▶ Academic Components
- ▶ Summary

Visual Language

1 Theme System

Typography

- ▶ Sans-serif interface for modern projection
- ▶ Bold frame titles with compact subtitles
- ▶ Readable block body text, no microtype feel

Color Roles

- ▶ **Blue**: navigation and primary claims
- ▶ **Cyan**: examples and secondary cues
- ▶ **Gold**: attention and transitions

Hohai Blue

Water Cyan

Warm Gold

Mist Panel

Information Architecture

1 Theme System

Slide Rhythm

One dominant message per frame; formulas, diagrams, and tables support the argument directly.

Section 2

Academic Components

Mathematical Expression

2 Academic Components

Regularized Objective

$$\min_{\theta} \mathcal{L}(\theta) = \frac{1}{n} \sum_{i=1}^n (y_i - f(x_i; \theta))^2 + \lambda \|\theta\|_2^2$$

Data fit

- ▶ Average prediction error
- ▶ Directly tied to observations

Complexity control

- ▶ Penalizes unstable parameters
- ▶ Supports reproducible inference

Table Example

2 Academic Components

Module	Input	Output
Data layer	Raw observations	Clean samples
Model layer	Feature matrix	Parameter estimates
Evaluation layer	Predictions	Metric report

Table Style

Use booktabs; avoid vertical rules and dense grid lines on slides.

Two-Column Layout

2 Academic Components

Problem Definition

- ▶ Research context
- ▶ Key constraints
- ▶ Main variables

Method Framework

$$y = f(x; \theta) + \epsilon$$

- ▶ Transparent model structure
- ▶ Reproducible evaluation pipeline

Section 3

Summary

What Changed

3 Summary

Theme Layer

- ▶ Rebuilt title page and Q&A page
- ▶ Rebalanced frame title and footer
- ▶ Modernized blocks, bullets, and code style

Usage Layer

- ▶ Keep using the hhu package option
- ▶ Compile with XeLaTeX
- ▶ Store HHU assets in assets/hhu/
